RECEIVED  
MAY 18 2015  
DIV. OF OIL, GAS & MINING

Dear Mr. Britton:

We have inspected the Scipio Pass Quarry that was recently mined under permit to Millard County. The reclamation associated with the earth work is acceptable and we concur with your recommendation for a partial bond release. We understand that some bond will be held until vegetation has been successfully re-established.

The rock pile which remains is property of the USFS and we accept reclamation responsibility for any disturbance associated with its removal.

Feel free to contact me or Rob Hamilton with any questions you may have.

Sincerely,

DEL BARNHURST  
District Ranger

cc: Millard County
